Education

FORM OF CONTRACT

NEC Option 3

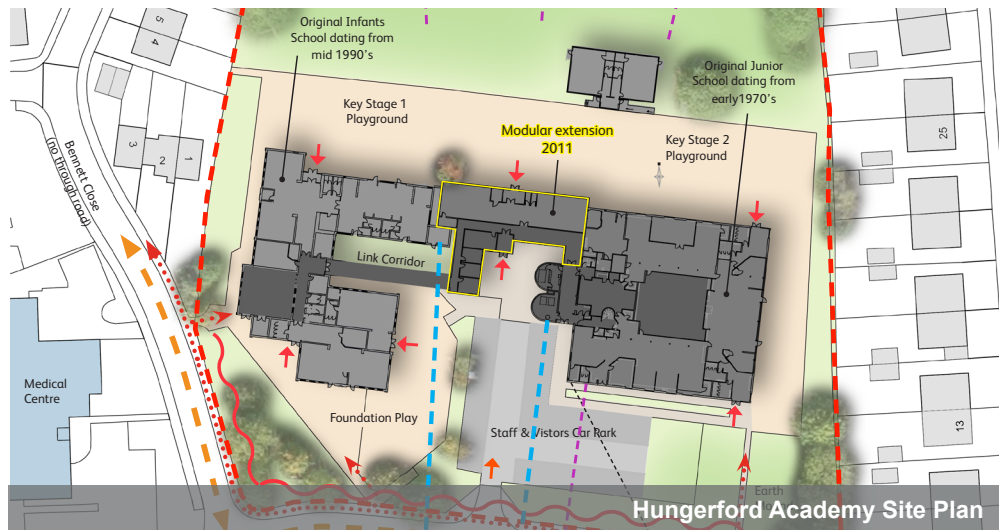

DELIVERY TYPE

Design & Build Construction

KEY KPIs

Mock interview session with students in Crewe

Following appointment through mini competition, an integrated project team has worked to secure a local supply chain and programme the delivery of the Hungerford Primary Academy project.

Project scope

The Academy is expanding from 2 Form Entry to 3 Form Entry and will have a complete replacement of all plant room plant and equipment. The expansion is achieved by means of the construction of additional classrooms from a one-class up to a five-class extension across five areas with the addition of selected areas of internal remodelling and refurbishment. A car park expansion is also planned, which will accommodate increased staff numbers.

Social Value

A Community Benefits Plan has been developed and agreed with the school, and includes a wide range of education, employment and supply chain activity. The plan includes the following targets:

- 3 Work Placements
- 2 Employment Activities
- 37.5 Apprentice Weeks
- 80% Workers from Cheshire
- 10 Training Weeks
- 2 Community Engagement Activities
- 95% to 100% Waste diverted from Landfill
- 100% Payments made within 45 days

NWCH MANAGEMENT TEAM

Web: <http://nwconstructionhub.org>

We have supported one construction trainee programme to date, supporting those looking to enter the industry.

Hungerford school pupils have taken part in a Careers Day, where we shared with them the wide range of roles available in the sector. Links with CITB have been made, and we will be working closely to promote training to the supply chain and support local SMEs.

Engagement work with South Cheshire College and the Department for Work and Pensions will result in a targeted approach to work placements for those most in need of practical experience.
